- **Whisper Quiet Office Shredders**
- **Heavy Duty High Volume Shredders**
- **Industrial Duty Conveyor Input Shredders**
- **Nationwide Service & Support**

Protecting your organization's propriety data extends beyond computer security. As more attention is focused on password protection, encryption and deletion of sensitive electronic files, hard copy documents cannot be overlooked. Proper disposal of sensitive information is essential to preventing theft of intellectual property, and to upholding privacy-related legal responsibilities.

No matter what the size of your organization, PEAK Technologies' complete line of Moore shredders offers a shredding solution to meet your specific requirements.

PEAK cross cut shredders combine maximum security with ease of use. Cross cut shredders provide two-way cutting action which produces confetti-like particles. Output from a cross-cut shredder is four times more compact than straight cut shredders, requiring far fewer waste bags.

Straight cut shredders are faster and can handle more sheets per pass. These shredders are also typically less expensive than cross cut models and less expensive and easier to maintain and repair. In addition, straight cut heads are less sensitive to paper clips and staples.

Trust the experts at PEAK to help you select the right shredder for your needs. Factors to consider include:

- The volume and thickness of documents to be shredded per day
- The maximum sheet size required
- Location of shredder and acceptable noise level
- Security requirements (cross cut or straight cut)
- Anticipated growth and demand
- Budget

All of the above factors are considered in selecting a shredding solution with the horsepower, capacity, entry width, speed and automatic features for your specific requirements. Whatever the size of your organization, the experts at PEAK are ready to provide you with the advice and equipment to help meet your document shredding needs today and in the future.

What's more, PEAK's extensive nationwide service organization provides unsurpassed expertise, with teams of industry-specific specialists for nearly every business sector. From hardware, software and consumables, to integration, installation, service and support, PEAK's full-circle office equipment and printing solutions simply mean business.

MOORE 1015CE MEDIUM DUTY CROSS CUT SHREDDER

Medium duty cross cut style shredder with a 10.25 inch paper throat opening for cut sheet products and continuous forms. Ideal size for departmental use. Shred up to 15 sheets per feed. Whisper quiet with steel cutting cylinders for handling standard paper clips and staples with ease. Fully automatic stop, start, and overfeed reverse.

Front unload collection box for shredded material. Dust-free console base has casters for easy mobility and a safety interlocked door. All capacities based on 20 lb. paper fed on the 8.5 inch width and may vary due to paper grain, paper fiber, and line voltage.

- Process paper clips and staples

Machine Specifications

Size: 34.25" H x 19.25" W x 15" D

Weight: 90 lbs.

Power: 1.5 HP, 115 Volts, 60 HZ, 10 Amp.

Speed: 20 FPM

Shred size: 1/8 x 1 inch

Sheets/feed: 15

Throughput: 80 lbs. per hour

Shred storage: 2.5 cu. ft.

Duty cycle: Continuous w/thermal overload protection

Quiet level: 54 db.a

Color: Light gray

Heat: 3,926 BTU

MOORE 1615CE MEDIUM DUTY CROSS CUT SHREDDER

Medium duty cross cut style shredder for continuous or cut sheet products with a 16 inch throat opening for easy shredding of wide computer printout paper. Shred up to 15 sheets at each pass. Ideal size for medium size department. Has sliding acoustic cover for maximum noise reduction when used in office areas.

Quiet machine with steel cutting cylinders for handling standard staples and paper clips with ease. Shelf folds into console base for easy storage. Automatic start, stop, and overfeed reverse easily clears paper jams. Front unload collection box for shredded material. Dust-free console base has casters for easy mobility. All capacities based on 20 lb. paper fed on the 8.5 inch width and may vary due to paper grain, paper fiber, and line voltage.

- Front load shred catchbasket
- Sliding noise reduction cover
- Folding paper shelf

Machine Specifications

Size: 40" H x 26" W x 17" D

Weight: 132 lbs.

Power: 1.5 HP, 115 Volts, 60 HZ, 10 Amps.

Speed: 30 FPM

Shred size: 1/8 x 1 inch, 1/16 x 5/8 inch

Sheets/feed: 15

Throughput: 130 lbs. per hour

Shred storage: 4.5 cu. ft.

Duty cycle: Continuous w/thermal overload protection

Quiet level: 54 db.a

Color: Light gray

Heat: 3,926 BTU

MOORE 1635CE HEAVY DUTY CROSS CUT SHREDDER

Heavy duty cross cut style shredder for continuous or cut sheet products with a 16 inch throat opening for easy shredding of wide computer printout paper. Shred up to 35 sheets at each pass with more security than straight cut units. Powerfully efficient unit with two motors. Ideal size for large sized department.

Quiet machine with steel cutting cylinders for handling standard staples and paper clips with ease. Automatic start and stop. Automatic overfeed reverse in case of paper jam. Front unload removable collection box for shredded materials.

Dust-free console base has casters for easy mobility. Vertical forms rack optional for multiple stacks of computer printout paper. As with all cross cut shredders, periodic cylinder lubrication and reversal is required by the operator. All capacities based on 20 lb. paper fed on the 8.5 inch width and may vary due to paper grain, paper fiber, and line voltage.

- Process paper clips and staples

Machine Specifications

Size: 39.5" H x 25.5" W x 20.5" D

Weight: 209 lbs.

Power: Two motors, 2-1/2 HP, 115 Volts, 60 HZ, 20 Amps.

Wiring: Dedicated 20 amp circuit required

Speed: 24 FPM

Shred size: 1/8 x 1-1/2 inch

Sheets/feed: 35-40

Throughput: 240 lbs. per hour

Shred storage: 5.2 cu. ft.

Duty cycle: Continuous w/thermal overload protection

Quiet level: 61 db.a

Color: Light gray

Heat: 7,852 BTU

MOORE 1770CE HEAVY DUTY CROSS CUT SHREDDER

Heavy duty cross cut style shredder for continuous or cut sheet products with a 17 inch throat opening for easy shredding of wide computer printout paper. Shred up to 70 sheets at each pass. Equipped with paper hopper and paddle stirrer for shredding wastebasket contents. Folding paper shelf on front. Ideal for large sized department. Steel cutting cylinders handle standard staples and paper clips with ease. Automatic stop in case of paper jam. Front unload removable collection box for shredded materials.

Dust-free console base has casters for easy mobility. As with all cross cut shredders, periodic cylinder oiling and reversal is required by the operators. All capacities based on 20 lb. paper fed on the 8.5 inch width and may vary due to paper grain, paper fiber, and line voltage.

- Process paper clips and staples
- Front load shred catchbasket
- Paddle stirring system for loose materials

Machine Specifications

Size: 63" H x 30" W x 22" D
Weight: 443 lbs.
Power: 3 HP, 220 Volts, 60 HZ, 3 phase
Wiring: Special 30 amp circuit required
Speed: 47 FPM
Shred size: 1/8 x 1-1/2 inch
Sheets/feed: 70-80
Throughput: 775 lbs. per hour
Shred storage: 7.2 cu. ft.
Duty cycle: Continuous w/thermal overload protection
Quiet level: 75 db.a
Color: Light gray

MOORE 1760CE INDUSTRIAL DUTY CROSS CUT SHREDDER

Industrial duty cross cut style shredder with conveyor input and paddlewheel stirrer for loose sheets, wastepaper basket contents, computer printout paper, manuals, file folders and other bulk media. Shred up to 60 sheets at each pass. Powerful unit can handle output from a complete building or division of a large corporation.

Steel cutting cylinders handle standard staples and paper clips with ease. Included, a cast-ered shred box with plastic bag liner for easy removal of shredded material. All capacities based on 20 lb. paper fed on the 8.5 inch width and may vary due to paper grain, paper fiber, and line voltage.

- Paddle stirrer at cutter input
- Process paper clips and staples
- Full-width stop bar at infeed
- Process loose materials
- Process pads of material

Machine Specifications

Size: 52" H x 39" W x 51" D
Weight: 584 lbs.
Power: 3 HP motor, 220 Volts, 60 HZ, 3 phase
Wiring: 30 amp. circuit required
Speed: 50 FPM
Shred size: 1/8 x 1-1/2 inch
Sheets/feed: 60
Throughput: 500 lbs. per hour
Shred storage: 14.3 cu. ft.
Duty cycle: Continuous w/thermal overload protection
Quiet level: 75 db.a
Color: Light gray

MOORE 1027SE MEDIUM DUTY STRAIGHT CUT SHREDDER

Medium duty straight cut style shredder with a 10.25 inch paper throat opening for cut sheet products and continuous forms. Ideal size for departmental use. Shred up to 27 sheets per feed. Whisper quiet with steel cutting cylinders for handling standard paper clips and staples with ease. Fully automatic stop, start, and overfeed reverse.

Front unload collection box for shredded material. Dust-free console base has casters for easy mobility and a safety interlocked door. All capacities based on 20 lb. paper fed on the 8.5 inch width and may vary due to paper grain, paper fiber, and line voltage.

Machine Specifications

Size: 34.25" H x 19.25" W x 15" D
Weight: 90 lbs.
Power: 1.5 HP, 115 Volts, 60 HZ, 10 Amp.
Speed: 30 FPM
Shred size: 1/4 inch strip
Sheets/feed: 27
Throughput: 135 lbs. per hour
Shred storage: 2.5 cu. ft.
Duty cycle: Continuous w/thermal overload protection
Quiet level: 54 db.a
Color: Light gray
Heat: 3,926 BTU

MOORE 1512SE LIGHT DUTY STRAIGHT CUT SHREDDER

Light duty straight cut style shredder for continuous or cut sheet products with a 15 inch throat opening for easy shredding of wide computer printout paper. Ideal size for small department or next to copy and fax machines. Shred up to 12 sheets per feed. Quiet machine with steel cutting cylinders for handling standard staples and paper clips with ease.

Automatic start and stop. Reverse switch easily clears any paper jams. Bag holder attaches to shredder allowing use on table or desk. Castored metal stand with paper shelf optional. All capacities based on 20 lb. paper fed on the 8.5 inch width and may vary due to paper grain, paper fiber, and line voltage.

- Process paper clips and staples
- Steel cutting cylinders

Machine Specifications

Size: 10" H x 21" W x 15" D
Weight: 38 lbs.
Power: 0.4 HP, 115 Volts, 60 HZ, 2.5 Amp.
Speed: 45 FPM
Shred size: 1/4 inch strip
Sheets/feed: 14
Throughput: 126 lbs. per hour
Shred storage: 5.3 cu. ft.
Duty cycle: Continuous w/thermal overload protection
Quiet level: 62 db.a
Color: Light gray
Heat: 982 BTU

MOORE 1622SE MEDIUM DUTY STRAIGHT CUT SHREDDER

Medium duty straight cut style shredder for continuous or cut sheet products with a 16 inch throat opening for easy shredding of wide computer printout paper. Shred up to 22 sheets at each pass. Ideal size for medium size department. Has sliding acoustic cover for maximum noise reduction when used in office areas.

Quiet machine with steel cutting cylinders for handling standard staples and paper clips with ease. Shelf folds into console base for easy storage. Automatic start, stop, and overfeed reverse easily clears paper jams. Front unload collection box for shredded material. Dust-free console base has casters for easy mobility. All capacities based on 20 lb. paper fed on the 8.5 inch width and may vary due to paper grain, paper fiber, and line voltage.

- Process paper clips and staples

Machine Specifications

Size: 40" H x 26" W x 17" D
Weight: 132 lbs.
Power: 1.5 HP, 115 Volts, 60 HZ, 10 Amps.
Speed: 30 FPM
Shred size: 1/4 inch strip
Sheets/feed: 30
Throughput: 150 lbs. per hour
Shred storage: 4.5 cu. ft.
Duty cycle: Continuous w/thermal overload protection
