Duplex Shipping Label/Packing Slip

Applications

All in one, duplex printed, DUPLEX SHIPPING LABEL/PACKING LIST. This product is designed especially for mail order houses, distribution centers, e-commerce companies, and others who ship many single carton orders. This design is ideal for distribution centers who receive and re-ship merchandise in the same sealed carton, AS WELL AS those companies with a corporate mandate or desire for packing lists to be on the outside of each carton.

Features

• Generated in a laser printer with duplex capabilities

• Saves costly labor

• Eliminates costly plastic pouch

Benefits

• One pass through the duplex printer generates the SHIPPING LABEL on the face stock and the PACKING LIST on the back of the liner. 100% guaranteed shipping label/ packing list match – NO MIX UPS!

• With one application the DUPLEX SHIPPING LABEL/ PACKING LIST is securely affixed to carton or package. Labor is the same as with a standard shipping label: remove liner and affix. HUGE LABOR SAVINGS for those requiring packing lists on the outside of the cartons

• Eliminates need for expensive and hard-to-handle plastic pouch for packing list

Instructions

Duplex Shipping Label/Packing List

- Information is generated in a Duplexing Laser Printer

- After items are picked and packed, the DUPLEX SHIPPING LABEL/PACKING LIST is applied to the carton

- Addressee receives package and follows instructions on the label to remove Packing Slip:

  - Tear from left to right on zipper style perforations designated by a Duplexing Laser printer

  - Tear center section along two vertical perforations at the left and the right

  - Tear across top perforation REMOVING CENTER RECTANGLE SECTION. The Confidential Packing List which is on the backside is now revealed
