

## INTRODUCING The Mobile Self-Checkout Station

Speed, Simplicity and Convenience in a portable, on-demand solution.

Peak's new mobile self-checkout station built around the Zebra Workstation Cradle or Zebra PH10 Point of Sale Hub has all the benefits of other self-checkout solutions with the added flexibility of mobility - quickly set it up and enable it when and where you need it with the Zebra TC52!

### QUICK & EASY

Peak's Mobile Self-Checkout Station is user-friendly, reducing lines and transaction times. The stations can be moved anywhere in the store and up and running in minutes.

### FLEXIBLE & AFFORDABLE

We offer a variety of configurations. Create your ideal mobile self-checkout station with our modular options giving you the most affordable checkout solution available.

### OPTIMIZE OPERATIONS

Fewer cashiers at check-outs means more associates available to assist shoppers and perform other support tasks.

### PORTABLE & FUNCTIONAL

Included in this solution is the Zebra TC52 which can power your entire Point Of Sale with mobility making it ideal for seasonal & overflow scenarios.

# Self-Checkout that's compact, portable and fits your budget.

## HARDWARE OPTIONS

From screen size to scanning, printing to payment, these hardware component options for your Kiosks are all individually selected for your needs and enables future upgradeability.

## OPTIONAL ADD-ONS

Peak offers removeable shelves, bag holders and small storage options to complete your custom station.

## CUSTOM BRANDING

The station base is available in any color and can include custom branding and product placement advertising.

## PEAK SERVICES COMPLETE THE PACKAGE

Peak's end-to-end approach ensures the long-term success of our solutions. Your experienced Peak's Account Manager will be with you from development through deployment and on-going support. We are your partner throughout the entire lifecycle of your self-checkout kiosk solution.

## ZEBRA TC52

The Zebra TC52 can power through a workstation cradle or a traditional single slot cradle while connected to the PH10 Point of Sale Hub on the Mobile Self-Checkout station.
