Name Change Announcement to Peak Technologies ULC

The last few months have been incredibly exciting for our organization. In early April, we changed ownership to Sole Source Capital, an experienced private equity company focused on the industrial services market and committed to our growth. With Sole Source's support, we have added tremendous capabilities, resources, and industry expertise to the Peak portfolio through the acquisition of four companies in the last 120 days.

Along with these exciting developments comes a renewed sense of commitment and purpose. To celebrate this exciting new chapter, we wanted to use this opportunity to reflect on our past, while looking forward to the future. We are extremely pleased to announce that we have changed our company name to **Peak Technologies ULC**.

For many of our long-time customers, this is a return to the company name that had been in place since our founding in 1981. When we merged with Ryzex in 2011, we combined our names to symbolize the union of two industry leaders. But over the last few years, we have become ONE Peak, added additional capabilities, battled through a pandemic together, and feel that the time is now to re-brand the company as we look forward to the future.

Now that we have officially changed our name, we wanted to provide notice to our valued customers so you can update your procurement and vendor master records with our new name, **Peak Technologies ULC**. We understand that it will take some time to update your records and will continue to work with you to ensure a seamless transition.

On behalf of my entire management team and our Peak employees and portfolio companies, we want to thank you for your partnership and look forward to our future together operating as Peak Technologies ULC.

If you have questions or would like any additional information, please feel free to contact your regular Peak business contact.

Sincerely,

Tony Rivers

President & CEO
Peak Technologies ULC
