

The Next Generation of Industrial Printing is Here

Now with Up to \$75 Rebates per Unit until May 1st, 2020

To meet the demands of today's dynamic production lines, Zebra Technologies' family of rugged industrial printers combine enterprise-grade durability with the unmatched processing intelligence of Link OS to deliver 24/7 reliability and flawless performance from run to run – all along with up to a \$75 instant rebate through Peak.

High Performance Made for High Demand

Built to ensure continuous performance even in the harshest environments, each printer integrates ease of use and efficiency to streamline productivity without confusing processes and costly downtime.

ZT600

- Designed and Built for 24/7 Operations
- Easy to use and maintain
- Easily integrate into your existing operations
- Add RFID support in the future if needed

ZT500

- Designed to strike the ideal balance between performance and value
- Supporting 24/7 Operations
- Easily integrate into your existing operations

ZT400

- Extremely durable and designed to grow with your evolving business needs
- Interact in color—see status at a glance on the 4.3-inch full-color touch display, make settings changes using the intuitive user interface and create frequently used shortcuts
- Identify metal assets—add Zebra's RFID On-metal Tagging capability to print and encode thicker UHF RFID tags

Why Print DNA

Zebra Print DNA is the genetic code that injects business-catalytic capabilities into Zebra printers through its unique combination of innovative applications, and utilities. The result is:

- Superior printing experience through better performance
- Simplified remote printer management
- Easier integration into your existing network and operations
- Greater device security

To experience the simplicity of industrial printing, contact Peak's printing specialists today and integrate the next evolution of intelligent efficiency, perfected for your operations and your budget.
