

# Print Perform

## Managed Print Solutions

Making printing easy, so you can focus on what you do best.

## Why Managed Print?

We make printing easy.

Servicing and supplying your printers can be costly and time consuming. Peak Technologies Managed Print Solutions is an innovative print management system that helps you optimize your printer fleet, while providing you with peace of mind. Our simple, turn-key processes and experienced industry experts will help you gain control, increase efficiencies, and manage costs, so that you can focus on what you do best!

Managed Print solutions combine a few key components that work together to provide you one easily manageable, efficient and cost saving printing solution.

- **Printing Consultation**
- **Supplies Management & Fulfillment**
- **Laser Printers/MFPs**
- **Software – Visibility, Monitoring & Reporting**
- **Onsite Service & Repair**

## Printing Consultation

We begin by helping you thoroughly evaluate your printing and imaging environment to determine your total cost of operation. Our trained professionals will provide an onsite walk-through of your offices, prescheduled interviews, and a complete inventory of your fleet equipment, including:

- **Identification of your printing and imaging needs**, challenges and strategies
- **Inventory of all of your output devices**, print volumes, software applications and workflows

We'll assess and analyze these results to provide you with a comprehensive managed print services strategy that will bring you cost savings and peace of mind.

## Benefits

With Managed Print Solutions we take the guesswork, frustration and extra cost out of supplying and servicing your printers.

- Predictable known cost-per-image
- Provides automatic shipments of supplies
- Provides automatic service intervention, as required
  - Help desk support
  - Reduce printer downtime
- Reduced waste
- Aligns expenses with usage
- Simplified billing
- Proactive monitoring
  - Develops a supply shipment and Usage history tied to each individual device
  - Device optimization

**NEVER OVER-ORDER OR RUN OUT OF SUPPLIES AGAIN!**

## Supplies Management

You're busy as it is. Why should you have to worry about your printers running out of toner, what inventory you have on site and what you need to order from one or multiple suppliers?

Peak is partnered with all the major printer brands, allowing us to manage your fleet, regardless of the printers you use. We'll ship you toner **when you need, where you need it.**

With our Supplies Management System (SMS) we monitor toner levels remotely and replenish automatically based on your consumption rates. This means there's no need for your team to order supply items, which reduces mis-orders, low inventory, and "rogue buying".

We also provide special Peak routing labels, ensuring each of your supplies are labeled with a device name, department and contact name, ensuring supplies are easily located and delivered directly to your desktop.

With our simple, 3 step process our service experts will ensure you always have exactly what you need:

- 1. We install our data collection service at your site**
- 2. We set up your account with [www.myprintermanager.com](http://www.myprintermanager.com)**
- 3. The data collection service begins tracking your devices and supply status, and automatically ships your toner based on your consumption rates**

**MYPRINTERMANAGER.com**

## Onsite Service

Peak takes responsibility of your printer fleet through reliable, comprehensive onsite printer repair and support, ready to assist you at a moment's notice. Key features include:

- **W2 service technicians**
- **Proactive monitoring of errors, scheduling of maintenance and repairs**
- **Monitoring of other errors (i.e. paper jams) and preventative maintenance scheduling**
- **National dispatch, specially trained to provide phone "triage"**

## Software

With the right software tools, you'll be able to automate your print management, including supplies tracking and ordering, trouble shooting and repair, and usage monitoring. Continuously monitor your printing environment and use ongoing process improvements to save you time and money.

### PrintReleaf – Sustain and grow our global forest system... one print job at a time.

PrintReleaf is the only technology platform that measures a customer's paper usage and directly offsets it with reforestation projects. Ask your Peak Technologies rep how your managed print solution can leverage Print Releaf to measure paper usage and certifiably reforest that usage on an equivalent basis.

Control the Total cost of ownership of your printing fleet. Optimize your printing for maximum up-time, efficiency and security.
