

“How do I get greater warehouse visibility?”

The answer's in black and white.

Cost-effective digitization starts here with GO Zebra

Trade in your legacy devices from any manufacturer with Peak to get cash rebates up to \$650 per device. [Contact us](#) to learn how.

Design, install, and maintain your customized digitization strategy with Peak's step-by-step assistance. [Contact our optimization specialists](#) today for a free assessment of your unique workflows to start customizing your solution.

Manual and paper-based operations often lead to inventory inaccuracy, workflow bottlenecks, and an overall negative customer experience. That's why we recommend safe and seamless digitization with Peak-Ryzex's adaptable optimization solutions - designed with Zebra's enterprise technologies.

From receiving to shipping, enhance inventory management visibility with:

Intelligent mobile computing

Connect your WMS to Zebra's MC9300 for greater stock visibility and simplified data sharing across the whole warehouse.

- Durable and ergonomic design
- High-speed connectivity
- Long-range data capture
- Pre-installed Android for Enterprise OS

Lightweight mobile printing

Take printing power with you anywhere you go to minimize travel times and eliminate bottlenecks at printing stations. Zebra's ZQ600 drives down power consumption with Wake-Up features and faster printing speeds so your printers remain productive where and when you need them.

- Lightweight yet compact
- Secured printing network
- Tap-to-pair connectivity
- Up to 600dpi resolution

Durable industrial printing -

For medium to higher printing volumes, choose an affordable industrial printer such as the ZT610 for easy media loading, simple installation, and intelligent printing.

- Link-OS
- User-friendly touchscreen
- All-metal casing
- Easy media loading

Zebra Certified Consumables -

No matter where you labels go, count on continuous performance with Zebra's certified consumables, pretested to survive in the harshest environments without losing legibility.

- Customizable
- Smooth surface for less residual debris
- Fast label replenishment
- Protects printhead lifespan
