# REDUCE COMPLEXITY. REGAIN YOUR EDGE.
# Introducing Mobility Edge

As seen in the *10 Key Challenges of Enterprise Mobility*, Honeywell's customer research revealed that our customers need a better, easier way to deploy and manage their mobile solutions.

How have we helped them solve this challenge?
*By taking a completely new approach to enterprise mobility.*

## To Accelerate the Edge, Rethink the Core

After talking to our customers, we completely rethought our approach to the challenges of supporting a mobile workforce. We quickly realized that no new simple technology upgrade was enough. Our customers needed something more comprehensive and dynamic – a mobile platform that is:

**Standardized on Android™**

**Common for all form factors**

**Designed for rapid and easy** app development, testing, provisioning, and deployment management

**Secure, with fast access** to the latest OS security patches or extended support

**Optimized** to drive productivity and efficiency of mobile workers

**Forward-compatible** and future-proof for extended TCO
